3 SECTION 5. That Section 33-1004E, Idaho Code, be, and the same is hereby amended  
 4 to read as follows:

5 33-1004E. DISTRICT'S SALARY-BASED APPORTIONMENT. Each district shall be  
 6 entitled to a salary-based apportionment calculated as provided in this section.

7 1. To determine the apportionment for instructional staff, first determine the district av-  
 8 erage experience and education index by placing all eligible district certificated instructional  
 9 employees on the statewide index provided in section 33-1004A, Idaho Code. The resulting  
 10 average is the district index. Districts with an index above the state average index shall receive  
 11 their actual index but not more than the state average plus .03 for the 1994-95 school year, and  
 12 shall receive their actual index but not more than the state average plus .06 for the 1995-96  
 13 school year, and thereafter shall receive their actual district index. The district instructional  
 14 staff index shall be multiplied by the instructional base salary of \$25,231. The amount so de-  
 15 termined shall be multiplied by the district staff allowance for instructional staff determined as  
 16 provided in section 33-1004(2), Idaho Code. The instructional salary allocation shall be fur-  
 17 ther increased by the amount necessary for each full-time equivalent instructional staff member  
 18 placed on the experience and education index to be allocated at least the minimum salary man-  
 19 dated by this section. Full-time instructional staff salaries shall be determined from a salary  
 20 schedule developed by each district and submitted to the state department of education. No  
 21 full-time instructional staff member shall be paid less than \$31,750. If an instructional staff  
 22 member has been certified by the national board for professional teaching standards, the staff  
 23 member shall be designated as a master teacher and receive \$2,000 per year for five (5) years.  
 24 The instructional salary shall be increased by \$2,000 for each master teacher. The resulting  
 25 amount is the district's salary-based apportionment for instructional staff. For purposes of this  
 26 section, teachers qualifying for the salary increase as master teacher shall be those who have  
 27 been recognized as national board certified teachers as of July 1 of each year.

28 2. To determine the apportionment for district administrative staff, first determine the dis-  
 29 trict average experience and education index by placing all eligible certificated administrative  
 30 employees on the statewide index provided in section 33-1004A, Idaho Code. The resulting  
 31 average is the district index. Districts with an index above the state average index shall receive  
 32 their actual index but not more than the state average plus .03 for the school year 1994-95,  
 33 and shall receive their actual index but not more than the state average index plus .06 for the  
 34 1995-96 school year, and thereafter shall receive their actual district index. The district admin-  
 35 istrative staff index shall be multiplied by the base salary of ~~\$36,532~~ \$34,705. The amount  
 36 so determined shall be multiplied by the district staff allowance for administrative staff deter-  
 37 mined as provided in section 33-1004(3), Idaho Code. The resulting amount is the district's  
 38 salary-based apportionment for administrative staff.

39 3. To determine the apportionment for classified staff, multiply \$20,376 by the district  
 40 classified staff allowance determined as provided in section 33-1004(4), Idaho Code. The  
 41 amount so determined is the district's apportionment for classified staff.

42 4. The district's salary-based apportionment shall be the sum of the apportionments cal-  
 43 culated in subsections 1., 2. and 3., of this section, plus the benefit apportionment as provided  
 44 in section 33-1004F, Idaho Code.
